RTSWINDBRACE

PRODUCT SUBMITTAL SHEET

Description

Bracing used to connect adjacent H-Stands. To be used at each location that an RTSSPBWIND is used, to add stability to tall stands, or to tie a system together to meet wind load requirements.

Installation

1. Install H-Stands per instructions
2. Preload (4) 1/2 in channel nuts and bolts into each fitting
3. Attach fitting to upright at the desired height
4. Install strut channel between H-Stands using the (2) remaining free channel nuts and bolts
5. Secure all hardware to 50 ft/lbs
